STROJEVI I MATERIJAL ZA SPIRALNI UVEZ - PERFORATING MACHINES AND BINDING SYSTEM

AP-32, AP-42
AUTOMATSKA PERFORIRKA
AUTOMATIC PERFORATING MACHINE

AUTOMATSKA PERFORIRKA AP-32, AP-42

Služi za automatsko bušenje araka papira bilo kolegij blokova, kalendara, bilježnica ili drugih grafičkih proizvoda koji se spiralno uvezuju. Na stroju se ugrađuju razni alati za bušenje bilo u koraku 3:1 ili 2:1. Idealan stroj za velike serije naročito u kombinaciji sa poluautomatskom zatvaračicom spirale AS-55 ili AS-70.

TEHNIČKI PODACI:	AP-32	AP-42
- najveća brzina bušenja:	do 5000 bušenja na sat	do 4500 bušenja na sat
- najveća debljina bušenja:	2 mm	2 mm
- najveći format:	320 x 320 mm	420 x 420 mm
- najmanji format:	148 x 100 mm	210 x 210 mm
- ulazna snaga:	0,75 kW	0,75 kW
- električni priključak:	400 V, 50 Hz	400 V, 50 Hz
- težina stroja:	450 kg	550 kg
- gabaritne mjere:	1,80 m x 0,90 m	2,10 m x 1,0 m

AUTOMATIC PERFORATING MACHINE AP-32, AP-42

The machine is used for the perforation of paper, be that pads of paper, calendars, notebooks or any other products bound by a spiral. Different perforating tools, with intervals of 3:1 or 2:1, can be mounted on the machine. The machine is ideal for large series of binding, especially in combination with the semi-automatic AS-55 or AS-70 spiral fastenings.

TECHNICAL DATA:	AP-3	AP-42
- The top speed of perforation	up to 5000 perfor. per hour	up to 4500 perfor. per hour
- The highest thickness of perfor.	2 mm	2 mm
- The biggest format	320 x 320 mm	420 x 420 mm
- The smallest format	148 x 100 mm	210 x 210 mm
- Input power	0,75 kW	0,75 kW
- Power connection	400 V, 50 Hz	400 V, 50 Hz
- Machine's weight	450 kg	550 kg
- Dimensions	1,8 m x 0,90 m	2,10 m x 1,0 m
