STROJEVI I MATERIJAL ZA SPIRALNI UVEZ - PERFORATING MACHINES AND BINDING SYSTEM

KO-50x70, 50x100

**POLUAUTOMATSKA KORIČARKA
SEMIAUTOMATIC CASE-MAKER MACHINE**

KO-50x70, 50x100 **POLUAUTOMATSKA KORIČARKA**

Stroj radi u poluautomatskom režimu sa četiri motora od kojih jedan nanosi ljepilo, drugi vrši kaširanje odnosno fino presovanje na ljepenku, treći zatvara korice i to u dva prolaza. Četvrti motor je vakum pumpa koja pravi vakum na perforiranom radnom stolu.

TEHNIČKE KARAKTERISTIKE:

- najveća format korice 460x700 ili 460x1000 mm
- najveća debljina materijala za lijepiti 3 mm
- brzina rada: do 150 kom u minuti
- aktiviranje stroja je automatski preko senzora
- električni priključak 380 ili 220 V
- ulazna snaga 2,7 Kw
- potreban komprimiran zrak 4 atm, 50 lit/min
- težina 160 kg
- gabaritne mjere 1000x700x1300 mm

KO-50x70, 50x100 **SEMIAUTOMATIC CASE-MAKER**

Machine operates in a semi-automatic mode, with the four engines, one of which apply with glue, second made paper covering respectively fine pressing on the paper pulp (cardboard), the third closes the cover in two passes, fourth engine is a vacuum pump which creates a vacuum on the perforated desk.

SPECIFICATIONS:

- greatest cover-format 460x700 or 460x1000 mm
- largest thickness of material for bonded 3 mm
- speed operation: up to 150 pieces per minute
- activate the machine automatically
- power 380V 50HZ 3phase
- total power 2.7 Kw
- require compressed air 4 atm, 50 l / min
- machine weight of 160 kg
- machine dimensions: 1000x700x1300 mm
